Facultad de Ingeniería - Departamento de TIC
Proyecto Integrador I
Taller sobre apropiación de .NET

Functional Requirements

The system has to:

R1. Allow the user to load data from a .csv file.

R2. Show all the information that has been loaded to the system.

R3. Filter the data according to the first letter of the department that the municipality belongs to, and show it.

R4. Generate and show a pie chart taking into account the type of territory of the municipalities.
